

Personal SWOT Analysis

Name: Amir Ranjbar Maki

STRENGTHS (Internal Positive)	WEAKNESSES (Internal Negative)
What am I good at? What skills help me succeed? What do others appreciate about me? • Communication • AI Management • Software Development (Java, Spring Boot, Vue.js) • Team Collaboration	What can I improve? Which skills need development? What holds me back? • Planning • Project timeline estimation • Prioritizing tasks effectively
OPPORTUNITIES (External Positive)	THREATS (External Negative)
Which opportunities can I use? What can help my career or internship? Which resources are available? • Upcoming Cybersecurity minors (Ethical Hacking, Hack and Sea) • Applying AI development skills to practical IT projects	What challenges could affect me? What risks should I be aware of? What obstacles may slow my progress? • Balancing academic workload with supermarket shifts • Rapidly changing technology landscape requiring constant upskilling • Burnout from overcommitting to projects and work without a strict plan
